**Parent & Tot:** Little to no experience. Designed to help a child feel comfortable in the water. Parent is involved and in the water at all times.

**Preschool:** Reluctant to enter the water and submerge. Participants begin to practice the fundamentals of swimming and water safety.

**Level 1 & 2:** Child must feel comfortable in the water without parent and is able to stand up in the shallow end unassisted before entering these levels.

**Level 3 & 4:** These levels give students success with fundamental skills and builds on the skills through additional guided practice.
